

Mile Sur Mera Tumhara

Daksha Thosar
S.Y. B. Com- C

Brainchild of the Department of Business Practices of Brihan Maharashtra College of Commerce, 'Mile Sur Mera Tumhara' was held on 11 and 12 January 2024 in Tata Hall. It witnessed enthusiastic participation of all the S.Y. B. Com students. The main aim of conducting 'Mile Sur Mera Tumhara' was to inculcate the idea of cross-cultural sensitization among the students and allow them to explore different cultures not only across India, but also worldwide.

Both the days were a spectacular array of performances and presentations. Each group of 8-12 students selected a culture/ state to be represented by that respective group. Students studied in detail about the food, clothing, language, history and art forms of the selected culture. Astounding performances, mouth-watering food stalls and an environment of togetherness were the main attractions of the event.

Students understood the true meaning of unity in diversity as they showcased cultures from every part of the country- Punjabi, Kashmiri, Maharashtrian, Parsi, Gujarati, South Indian, to name a few. Furthermore, the selection of cultures from across the world like that of Spain, Italy and Nepal, truly helped the students delve into and significantly understand cross-cultural exchanges. Students were all decked-up in the traditional costumes of the selected state. Traditional delicacies from each state were presented accompanied with spectacular performances. From Garba of Gujarat to Salsa of Spain, Lavani of Maharashtra to Bhangda of Punjab, the performances made the audience groove to the cultural rhythm of every state.

Dr. Rajeshree Gokhale and Prof. Neetika Sharma acted as a guiding light for the students throughout. They interacted with the students about their learnings from the activity. Principal Dr. Rajesh Kuchekar Sir encouraged the students by visiting all the stalls along with a guest from Australia Shri Milind Sathe. The activities conducted within the event marked a sense of respect for all the cultures. It educated the students about cross-cultural sensitization in a lively manner.
